Summary

I'm **Arif** (he/him)! In my research, I develop and evaluate systems to support instructors and students through human-centered design. I focus on computing education, specifically for students who are **not** majoring in Computer Science.

Education

University of Illinois Urbana-Champaign

Aug 2023 – May 2028

PhD, Computer Science

(expected)

- **Advisor:** Dr. Katie Cunningham

MS, Computer Science

Jan 2026

- **Thesis:** *Developing and evaluating domain models for programming skills using learning curve analysis*

Istanbul Technical University

Sep 2018 - Jan 2023

BS, Computer Engineering

- **Thesis:** *Automated Realistic Lip Sync Generation for Unconstrained Videos*

Teaching

Lead Teaching Assistant, **Modeling and Learning in Data Science**, UIUC

Spring 2026

Teaching Assistant, **Modeling and Learning in Data Science**, UIUC

Fall 2025

- Leading hour-long discussion sections for CS307 - Modeling and Learning in Data Science with Dr. David Dalpiaz (Fall 2025) and Dr. Pablo Robles Granda and Dr. Dan Gonzalez (Spring 2026)
- Preparing and teaching lectures on ML fundamentals and applications with Scikit-Learn for over 100 students

Instructor / Facilitator, **Machine Learning Foundations**, Break Through Tech

Summer 2026

Course Support, **Machine Learning Foundations**, Break Through Tech

Summer 2025

- Supported the small group discussions in the lectures for the 9-week ML Foundations course with 52 students
- Provided just-in-time instruction for weekly assignments

Lecturer, **Introduction to Python**, ITU ACM Student Chapter

Fall 2022

- Held introductory Python lectures and supervised hands-on tutorial sessions for more than 100 students

Guide & Mentor, **Deep Learning Study Group**, inzva.com

Oct 2021 - Nov 2022

- Gave lectures on object detection, face recognition, and neural style transfer to more than 100 students as part of the Google Developers ML Bootcamp and Deep Learning Study Group at inzva hackerspace

Selected Publications

* denotes equal contribution.

Selected Professional Experience

AI/ML Research Intern

ACT Inc.

Iowa City, USA (Remote)

June 2025 – Aug 2025

- Led a human-centered design project for improving question authoring experience for subject matter experts creating multiple-choice reading comprehension questions for the ACT exam
- Conducted interviews to identify design opportunities for authoring tools with subject matter experts
- Designed and implemented a human-AI collaboration tool for question authors to utilize LLM-generated suggestions in early-stage ideation processes to improve user experience and productivity
- Evaluated the impact of the tool in a mixed-methods user study, presented at **AIED 2026** [FP6]

Undergraduate Mentorship

Claire Zheng, Fall 2024 - Spring 2026

Yoshee Jain, Spring 2024 - Fall 2024

Nicole Hu, Spring 2024

Honors & Awards

Future Leaders of AI, ACM AI Summit (\$1250), 2026.

Doctoral Consortium Travel Funding, EDM 2024 (\$2500), 2024.

Grants

Building a community of practice to support programming education across engineering departments. Strategic Instructional Innovations Program, The Grainger College of Engineering (\$6500). 2026.

- **PIs:** Katie Cunningham, Ali Ansari, Bryan K Clark, Christopher Tessum, Elizabeth Wickes, Max Fowler, **Mehmet Arif Demirtas**.
- **Role:** Co-author of proposal and corresponding co-PI for research activities.

Service

Panel Moderator, SIGCSE Virtual 2024

- *Challenges and Solutions for Teaching Decomposition and Planning Skills in CS1* with Dr. Eliane S Wiese, James Finnie-Ansley, Dr. Rodrigo Duran, Dr. Katie Cunningham

Reviewer: SIGCSE TS 2027-2026-2025, CHI 2025, SIGCSE Virtual 2024, Computer Science Education

Student Research Competition Judge: ISUR Research Expo 2026
